In My Area User Guide

This is the window you see when you first open the map:
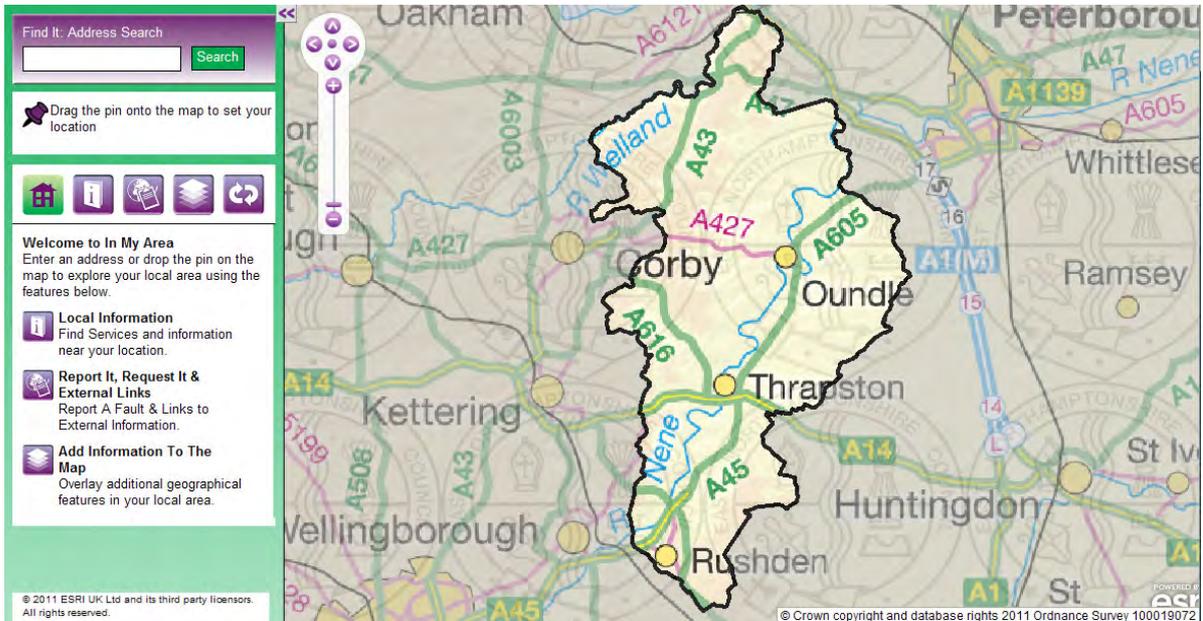

To move around the map

You can move around on the map by either dragging the map with your cursor or using the arrow buttons

To zoom in and out

- To zoom in and out you can use the wheel on the mouse. (rolling forward zooms in, rolling backward zooms out) or

- You can use the scale slide where you can drag the small grey bar up to zoom in and down to zoom out or

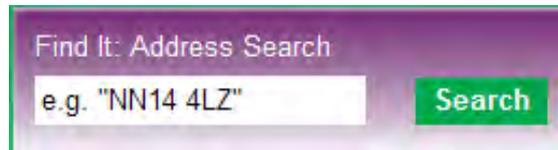

- Click on the + (zoom in) and – (zoom out) buttons accordingly.

- You can also hold the Shift key and draw a square using the mouse over the area you wish to zoom in.
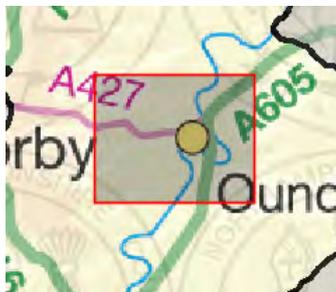

To search for an Address

You can use this search box to type in a postcode or an address. If you only know part of an address you can use * as a wild card (e.g. 10 Church*):

It will then ask you to specify the property. To do this simply click on the appropriate address:

Once you have clicked on the address it will automatically zoom you to the address specified and gives you a pop up information window informing you of the address:

To Select a Location

You can also select a location using the pin and the map. You can drag the purple pin from the side of the map to anywhere on the map to select a location.
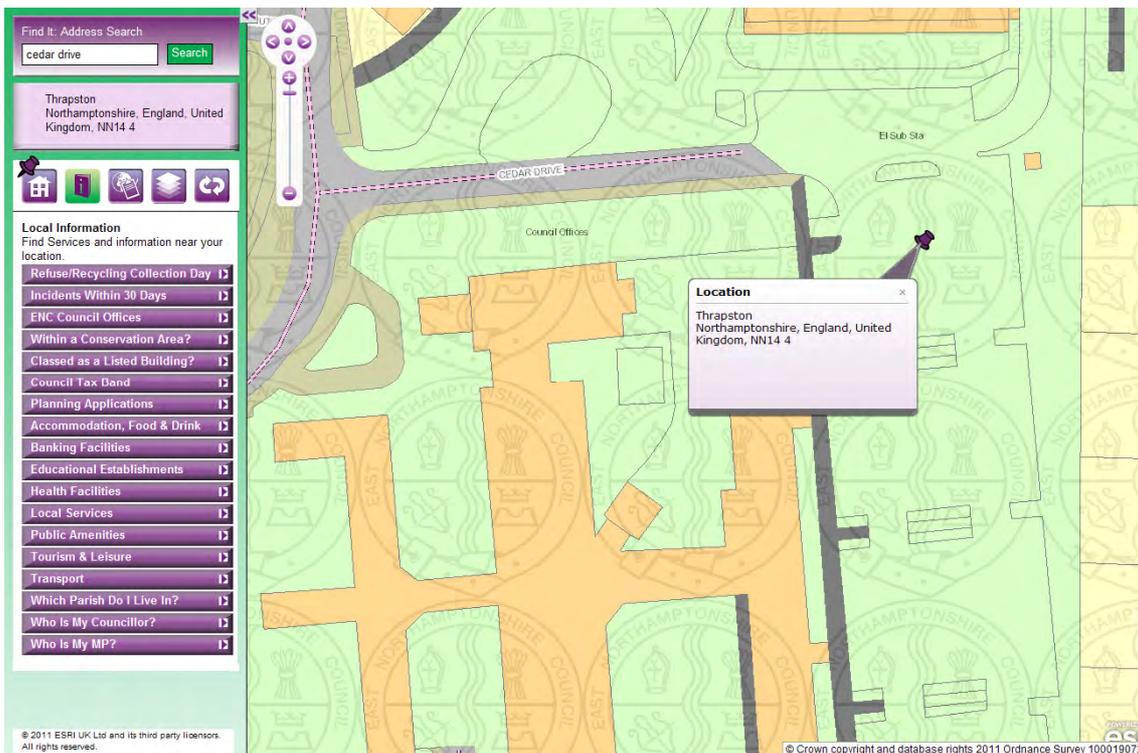

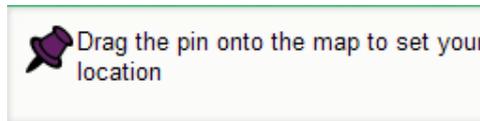

You can use these buttons to change between the different information:

  This is the home button and will return you to the home menu.

  This is the information button and will take you to information about your local area. You can either click on this button, do an address search or put the pin in a location.

  This lists any related webpages or surveys you may be interested in.

This will allow you to turn on or off information available to display on the map.

This refreshes the map to the home menu and original map display

Home Menu

This is the home menu and lists the information available from In My Area:

Local Information   This takes you to the information on your local area

Local Links   This takes you to related webpages and surveys you may be interested in

Map Features: This takes you to where you can display information on a map.

Welcome to In My Area
Enter an address or drop the pin on the map to explore your local area using the features below.

Local Information
Find Services and information near your location.

Report It, Request It & External Links
Report A Fault & Links to External Information.

Add Information To The Map
Overlay additional geographical features in your local area.

Local Information

This page appears after you have carried out a search, or dropped a pin at a location. This page has dropdown menus, which if clicked, gives you different information about the area; such as local councillors, names and locations of nearby schools, or contact details and locations of local health services.

You can also zoom to the location of a feature by clicking the numbered icon in the top left of the information box (shown below). This will also highlight that particular piece of local information on the map itself. There are also links to websites associated with the selected information - such as East Northamptonshire Council's Website (shown below).

Local Links

This page gives you related links to various websites and surveys, such as a link to the police website or a link to a road defect survey.

More links and surveys will appear after you carry out an address search, and different links and surveys may appear after dropping the pin onto the map.

Map Layers

This allows you to add different information to view on the map:

Add Information To The Map
Overlay additional geographical
features in your local area.

- [ ] 2005 Aerial Photography (zoom in
  past red wireframe to view)

  - Group

If you put a tick in the box against the information it will automatically appear on the map. You can turn on as many layers as you like. To turn them off simply un-tick the box and the information will automatically disappear.
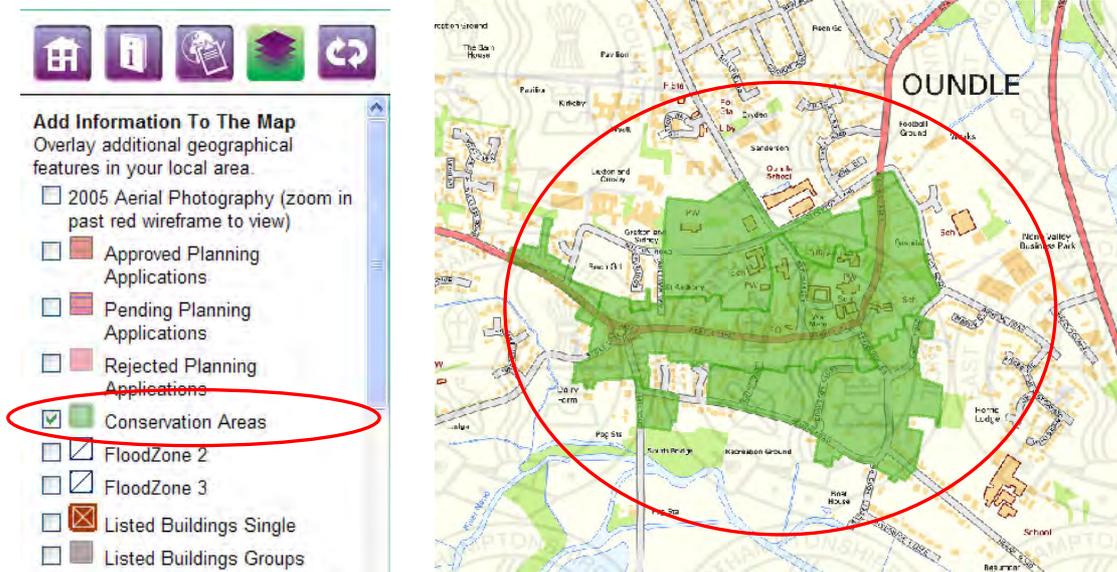

When you have information displayed on the map you can then find out more information about that particular topic by clicking on the map. A balloon pops up with information related to that feature. Information such as the name of a school, grade of a listed building, or website of a hotel can be found this way.
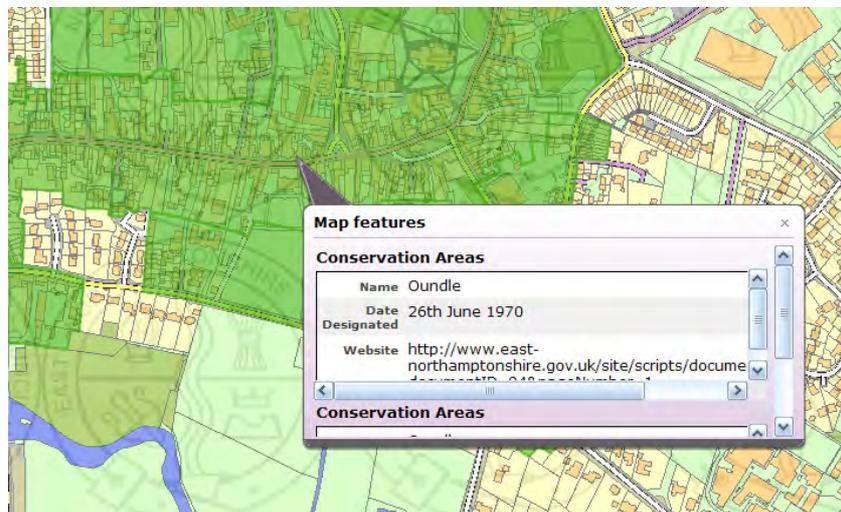

To remove all the visible layers; at the bottom of the list of information there is a link that says 'Hide all'. If you click this then all the information you have added will be removed.

Refresh Button

If you want to return to where you were before you started. This button will remove any pins, searches or information you may have added and take you back to the window you saw when you first opened the map:
