House to House Collections – Appeal against Officer Decision to Refuse Application

Purpose of report

To hear an appeal against an officer decision to refuse a house to house collection from Unicare Limited collecting on behalf of UK National Kidney Federation.

Attachment(s)

- Appendix 1 – Application Form
- Appendix 2 – Supporting information to application
- Appendix 3 – Refusal Letter
- Appendix 4 – Email requesting appeal
- Appendix 5 – House to House Collections Policy

1.0 Background

- 1.1 A House to House Collections Policy was approved by Policy and Resources Committee in August 2010, this was reviewed in December 2011 as a result of a year of operation and the NALEO guidance being published. As a result of this Policy and Resources approved a revised Policy in December 2011. Officers refuse applications when they do not meet the requirements set out within the policy (Appendix 5). If an applicant appeals against an officer decision this is then placed in front of a licensing panel to determine prior to final refusal.

2.0 House to House Collection

- 2.1 Ms Nicola Gordon of World UK Trading Limited made an application (Appendix 1) on behalf of Forces Support to operate house to house collections July 2013 with alternative of any dates available in 2013 throughout East Northamptonshire.
- 2.2 This application was assessed by officers against the House to House collections policy and a letter was sent to the applicant explaining we were minded to refuse this application for the following reasons (Appendix 3):-
- The total amount likely to be applied for charitable purposes as the result of the collection (including any amount already applied) is inadequate in proportion to the value of the processed likely to be received (including any proceeds already received).
 - Remuneration which is excessive in relation to the total amount aforesaid is likely to be, or has been retained or received out of the proceeds of the collection by any person.
 - The applicant has refused or neglected to furnish to the Authority such information as they may have reasonably required for the purpose of informing themselves as to any of the matters specified in the foregoing paragraphs.
- 2.3 The main reason for the above decision was application of the 70% - 30% rule within the policy, which states that:
- Refusal of the application should be given serious consideration when less than 70% of the value of the collection at the point of donation is being given to

the charity. The original documents submitted with the application (Appendix 2) did not show how proceeds were to be divided.

- 2.4 - The request included a breakdown of costs which purported to show a breakdown of costs at a split of 80% - 20%. However the application goes on to state that the charity will be paid £120.00 per tonne. It is known that the trade would expect to make between £900 and £1,000 per tonne. The application does not detail what would happen to the difference.

3.0 Recommendation

- 3.1 It is recommended that this application be refused as it does not meet the requirements within the East Northamptonshire Council, House to House Collections Policy.
